### **DETAILED ACTION**

Applicants' arguments, filed 9/16/08, have been fully considered. Rejections and/or objections not reiterated from previous office actions are hereby withdrawn. The following rejections and/or objections are either reiterated or newly applied. They constitute the complete set presently being applied to the instant application.

#### ***Claim Rejections - 35 USC § 103***

**Claims 1-6 and 8-11** were rejected under 35 U.S.C. 103(a) as being unpatentable over teachings of Watanabe et al (WO 01/02378, see IDS dated 03/09/07) in view of Cullen et al (US 4,748,186, see 892 dated 6/16/08), and Assmann et al (US 6,277,791, see 892 dated 6/16/08).

This rejection is maintained.

Applicants assert claim 1 has been amended to require a synergistic result of the composition and the prior art has no showing of such synergism.

Watanabe et al specifically teaches that the active compound may be used in a mixture for the purpose of widening the activity spectrum and preventing the development of resistance. Where, such properties are sought, a synergistic effect would be obvious, as also suggested (page 8 lines 23-28), given the ability of the combinations to attack pests through a wider spectrum of activity. Further, Assmann et al supports this assertion by teaching the addition of compounds to pesticides are known to have synergistic effects. The synergistic effect instantly claimed is not an unexpected result, given the teachings of the prior art.

Applicant's assertion of nearly infinite possible combinations is unfounded where the active pesticide is the main compound taught in Watanabe et al. The selection would then only be the selection of the second agent. Thus the combination is not overly burdensome and the testing would simply require mixing the various compounds and testing with an expectation of success.

### ***Conclusion***

**THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the mailing date of this final action.
